

NORTH PARK INNOVATIONS GROUP INC.
Summer Internship - Take Home Test

Hi Team,

I found the task challenging as it was open ended and learn quite a few things along the way. I worked on it iteratively, building the backend first, then the front end followed by the beautification part. I took roughly 23 hours for the entire task, have added the detailed break up as well.

Deliverables:

Source code: <https://github.com/beckonpraveen/service-me>

Deployed at: <http://ec2-18-217-46-242.us-east-2.compute.amazonaws.com:3000>

Demo video:

<https://drive.google.com/file/d/13czfDDCBgozRH5yOkktABpoFTVu7dOda/view?usp=sharing>

Stack:

I used Nuxt for end-to-end development

Database	MongoDB
Backend	Node.js, Express, Mongoose
Frontend	Vue.js, Bootstrap, axios, Chart.js

Data Preprocessing:

I did some preprocessing on the given tickets data, the preprocessing script and the processed data is available in the **data** directory,

- i) Renamed field names to be consisted (ex: removed spaces)
- ii) Converted date to ISO format
- iii) Extracted year part and added a separate year field for reporting purposes

Features:

Login

Ticket Listing:

- Tickets List
- Ticket Detail
- Pagination (max 10 per page)
- Sorting
- Searching

(Contd.)

Dashboard:

Allows the user to analyse data on a yearly basis(recent 5 years) as well as for all the years.

- i) Number of Open tickets
- ii) Total tickets grouped by Satisfaction
- iii) Total Tickets By Issue Type
- iv) Total Tickets By Priority
- v) Total Tickets By Category
- vi) Tickets Volume Per Year (trend across all the years)

Time Taken:

Set up: 3 hrs 50 mins

Understanding Requirements	30 mins
Design (UI + Tech)	1 hour
Data processing & Import	20 mins
Layers & Directory set up	2 hrs

Functional Tasks: 19 hrs

Task	Backend	Frontend
Listing with pagination & sorting	1 hr 30 mins	1 hr 40 mins
Ticket Detail	-	1 hr
Login	20 mins	15 mins
Search	1 hr	1 hr
Sorting	30 mins	45 mins
Date Handling	1 hr	-
Dashboard	2 hrs	3 hrs
State Management	-	30 mins
Routing	-	30 mins
UI Beautification		2 hrs
Refactoring	30 mins	30 mins
